PROFESSIONAL SUMMARY

Full-stack developer and data analyst with 4+ years of experience building web platforms and turning the data they generate into decisions. Ships e-commerce stores, real-estate portals and Flask dashboards in Python, SQL and JavaScript, and pairs them with machine learning models, statistical analysis and Power BI reporting. IBM-certified data analyst with 12+ delivered projects, completing a B.Sc. in Estate Management at the University of Ibadan.

EXPERIENCE

Full Stack Developer - 4P Studio | 2026 – Present

- Building a fashion e-commerce store with Paystack payments, product variants and order management.
- Developed an admin dashboard for running the store and a loyalty-streak system that rewards repeat customers.

Technical Administrator & Manager - Beyond Remittance Ltd | 2024 – Present

- Manage hosting, security, backups and performance for diaspora-facing platforms on Bluehost.
- Built welcome2amercia.org (tourism platform) with Google Analytics 4, event tracking on key user actions and a lightweight real-time dashboard for visitor trends.
- Managed ipadawale.org: implemented a custom data layer, form conversion tracking, scroll depth and referral source analysis, cut load times by 34% and set up weekly Looker Studio performance reports.
- Set up A/B test readiness and performance monitoring (LCP, CLS) across both sites.

Data Analyst Intern - Data Science Nigeria (DSN), Lagos | Aug 2023 – Oct 2023

- Automated data collection and reporting with Python, reducing manual effort by 40% across the team.
- Developed a stock price forecasting model using time series analysis that reached 90% accuracy on validation data.
- Built a web scraping pipeline with Beautiful Soup, consolidating data from over five external sources into one structured feed.
- Designed Power BI dashboards to track A/B test performance, contributing to a 22% lift in marketing ROI.

Front-End Developer & Analyst - EduCare, Lagos | Apr 2021 – Jan 2022

- Translated business requirements into technical specifications and SQL queries to analyze user engagement patterns.
- Built a library of reusable HTML/CSS components, cutting design-to-development handoff time by 60%.
- Created predictive models to forecast user activity trends, informing content personalization decisions.

PROJECTS

ThreadPLUG - Sustainable Thrift Store (WordPress / WooCommerce)

- Rebuilt the platform end to end, replacing 45+ bloated plugins and heavy page builders with a fast custom WooCommerce solution.
- Added auto-drafting of sold-out items and dynamic category filtering.

OyoProperties - Real-Estate Platform (Flask)

- Built separate agent and renter dashboards, property CRUD, an enquiry pipeline, email verification and an admin panel to approve listings.

Patient No-Show Prediction (Python, Scikit-learn, Power BI)

- Analyzed 110,000+ medical appointment records with five machine learning models, reaching 79.6% accuracy.
- Found that wait times beyond 30 days correlated with a 35% no-show rate, pointing to $500K+ in potential annual savings for providers.

Healthcare Financial Dashboard (Power BI, DAX, Azure)

- Analyzed £3.36M in billing data, highlighting top revenue drivers (X-Ray 31%, CT Scan 24%) and patient out-of-pocket payment trends.

Customer Segmentation & Clustering (Python, Scikit-learn, Tableau)

- Applied K-Means and Hierarchical clustering to 10,000 customers, surfacing five high-value segments with targeting recommendations used by the marketing team.

Housing Market Analysis (SPSS)

- Quantified how monetary policy instruments (CRR, MPR) affect residential property prices in Ibadan; CRR changes mainly influence 2-bedroom prices, while MPR shifts drive 3-bedroom valuations.

TECHNICAL SKILLS

- **Programming & Backend:** Python (pandas, scikit-learn, Flask, Beautiful Soup), SQL (PostgreSQL, BigQuery), JavaScript, R, PHP
- **Frontend & E-commerce:** React, Tailwind CSS, HTML/CSS, Figma, WooCommerce, Paystack API
- **Data & Analytics:** Power BI, Tableau, SPSS, Jupyter, Google Analytics 4 / Tag Manager, Looker Studio
- **Machine Learning & Statistics:** Predictive Modeling, Customer Segmentation, Time Series Forecasting, A/B Testing, Statistical Analysis, ETL & Data Wrangling
- **Tools:** Git & GitHub, Streamlit, Bluehost hosting administration

EDUCATION

- B.Sc. Estate Management, University of Ibadan (expected 2026)
- Data Science Program, Learnify Academy (2025)
- Data Analytics, IBM (completed 2022)

CERTIFICATIONS

- IBM Data Analyst Professional Certificate (2022), 9-course series
- Data Scientist in Python, DataCamp
- Data Analyst in Python, DataCamp
- Associate SQL Developer, DataCamp
- Finance Data Analysis & Analytics, IMTF (2025)
- CompTIA A+ | HubSpot SEO & Email Marketing
- Cisco: Intro to Cybersecurity, Cyber Security Fundamentals
- Building Your Own Database Agent, DeepLearning.AI
